

Aftercare Information:

We want to make your trips to Aquavet as enjoyable as possible so detailed below are just a few tips and information regarding your dog's aftercare following hydrotherapy treatment.

If you have any questions please do not hesitate to contact us on 0114 2583221.

After the session:

Please monitor your dog and make us aware of any increased lameness/ stiffness or if they are overly tired plus any other information you think may be of importance.

We recommend recording your dog on dry land at regular intervals and take photographs so you are able to look back over these videos to monitor progress.

Remember to follow the exercise and medication regime recommended by your vet or physio. Your dog will not require any further exercise on their hydro days.

Do not allow your dog to swim in cold outdoor water during your time at Aquavet. We keep our water warm to ensure good blood supply to the muscles and optimum rehabilitation and fitness swims.

We keep your vet up to date with your dog's progress by sending monthly reports.

Don't forget:

Whilst we will happily claim back session costs from your pet insurance company it remains your responsibility to check your policy plus we ask for payment at the end of each session. You are able to take advantage of our upfront package deal: buy ten sessions and get your 11th free!

Aim to book all sessions in advance because we do get very busy and we want you to have hydro sessions at a time that suits you.

We stock our own range of dog coats, towels and swimming bags

We offer a multi dog discount

We are able to shampoo your dog for £5.90 following their hydro session plus do not forget to collect your loyalty stamps to work towards a free shampoo!

Do you think your pet has what it takes to be Swimmer of the Month?!

If so please ask one of the team for an application form then check out 'Splash!' our monthly newsletter for the results!
